

# Mega Twister Seal

MEGA FORTRIS  
NEW ZEALAND

The Mega Twister is a cost-effective durable plastic and wire utility seal with an easy application.

The Mega Twister is a high-quality and cost-efficient sealing solution for all kinds of metres. The Mega Twister is available in Polycarbonate or High Impact ABS material for the body with an Acetal tap in a variety of colours.

The non-flammable High Impact ABS plastic provides excellent bar-coding contrast. Typical applications for the Mega Twister include utility metres, scales, gasoline pumps, drums and totes.

Mega Twister seals are supplied in mats of five with tear-off mechanism which make the seal easy to handle and control.

## FEATURES

- 1 Mega Twister seals are etched with permanent laser marking. Laser marking offers the highest level of security as it cannot be removed and replaced.
- 2 The side flap area is etched with sequential numbering, logo or other customised marking for high security and easy identification.
- 3 Colour coding is possible by combinations of clear transparent body and multi-coloured twister.
- 4 Heat stacking technology is used to permanently affix the twister in the seal body. This technology will leave clear evidence of tampering if the seal is cut or forced open.
